

CHONG TANG

PhD Candidate in Leisure Management

School of Liberal Arts, Macau University of Science and Technology
chongt.contact@gmail.com | ORCID: 0009-0008-5423-7632

RESEARCH INTERESTS

- Human-AI interaction and digital work
- Online reviews, user-generated content (UGC), and digital consumer behavior
- Knowledge management and organizational learning in hospitality, tourism, and service contexts

EDUCATION

2024-Present	PhD in Leisure Management Macau University of Science and Technology, Macau
2022-2024	Master of Business Administration City University of Macau, Macau
2018-2022	Bachelor of Business Administration City University of Macau, Macau

PUBLICATIONS

Book Chapter

- Sabetzadeh, F., & Tang, C. (2026). Harnessing AI in corporate training: Transforming KM and workforce development. In G. Liu, J. Chen, & E. Tsui (Eds.), *Generative Artificial Intelligence in Knowledge Management Systems: Concepts, Design, and Case Studies* (pp. 149-193). Routledge. <https://doi.org/10.4324/9781003640929-8>

CONFERENCE PRESENTATIONS

- Tang, C. (2026). When human-AI collaboration backfires: The impact of interaction frequency with AI on proactive service behavior from a cognitive load perspective. 13th AHTMM Conference, Macau, China.
- Tang, C., Liu, Y. M., Alves, J. C., & Xie, D. J. (2024). Opportunities and challenges for currency digitalization. 31st Pacific Rim Management International Conference, Macau, China.

RESEARCH METHODS & TOOLS

Quantitative: structural equation modeling (AMOS, Mplus), survey design, and SPSS.
Computational: large-scale online review analytics, computational text analysis, LLM-assisted coding, and Python-based data processing.

TEACHING EXPERIENCE

2024-2026	Part-time Lecturer Zhuhai College of Science and Technology Logistics Integrated Practicum for undergraduate logistics programs.
